Career Summary

A Software Engineer specializing in **front-end development** with expertise in **React Native, Flutter**, and **RESTful APIs**. Proficient in JavaScript, Dart, Firebase, and state management, focused on crafting scalable, user-centric applications with seamless, visually appealing interfaces. Skilled in **problem solving** and **delivering impactful**, business-driven solutions

Technical Skills

Languages: JavaScript, Dart, C++, HTML/CSS, SQL

Frameworks: React Native, Flutter, React.js, Express.js

Developer Tools: VS Code, Postman, Firebase, Android Studio, Git, GitHub

Core Competencies: Computer Networks, DBMS, DSA

Experience

Mintways Technologies

Sep 2024 – Current

Software Engineer

Banglore, Karnataka

- Developed **cross-platform applications** using React Native and Flutter, delivering seamless user experiences and achieving optimal performance on both iOS and Android platforms. Consistently enhanced app efficiency, contributing to a **20% improvement in user engagement and retention**.
- Integrated **RESTful APIs in collaboration with back-end teams**, ensuring seamless communication between front-end and back-end systems. Successfully optimized data handling for **1000+ active users**, contributing to the development of feature-rich, dynamic applications that are **30% faster and more robust**.
- Reduced app crash rates by 45%** through implementation of **Firebase crashlytics**, leading a more stable and reliable user experience.
- Enhanced app reliability and maintainability by writing comprehensive **unit test cases**, increasing coverage by **50%** and reducing production bugs by **30%**.
- Optimized code to boost performance by **40%**, ensuring smooth functionality across **50+ device models and operating systems**. Delivered clean, scalable code, reducing load time by **25%** and enhancing user experience.
- Collaborated with **multidisciplinary teams, including designers, backend developers, and product managers**, to transform innovative concepts into functional, high-quality applications.

Projects

E-Bazar: Online shopping portal | React, JavaScript, Redux, HTML, CSS, Tailwind CSS

September 2023

- E-Bazar is a cutting-edge, fully **responsive** e-commerce platform built with HTML, CSS, JavaScript, and React, crafted to deliver an intuitive and immersive shopping experience, it combines sleek design with high functionality to ensure **seamless user engagement across devices**.
- Modular and reusable** components for easy updates and scalability.
- Successfully integrated **APIs for real-time product updates** and seamless shopping experience.
- Developed and deployed a responsive e-commerce platform, achieving a **20% boost in user engagement**.
- Link: <https://e-bazaronlineshop.netlify.app/>.

Coursework and Achievements

- Solved **120+ Data Structures and Algorithms** problems on different coding platforms such as **LeetCode** and **GeeksforGeeks**.
- Led the development of core features in enterprise applications, contributing to successful project deliveries.
- Developing soft skills and personality** from NPTEL.
- Graduated in the **top 1% of my department**, recognized for academic excellence.

Education

Bihar Engineering University

Dec 2020 – Aug 2024

Bachelor of Technology in Electrical and Electronics - (C.G.P.A – 8.12)

Patna, Bihar
